

**ROAD TRIP
CHECKLIST**

Mobil 1™

Driving with your new bundle of joy may not always be so, well, joyful.

But making sure you're prepared with all the supplies you need, ensures a better drive for you and your baby.

OIL CHANGE

A safe drive with your new baby requires a safe car. That's why regular oil changes using Mobil 1™ motor oil keep your engine running like new for peak performance and safety.

**Get ready
for driving
with your baby**

with a Mobil 1™ motor oil change
from your local Walmart Auto Care Center today.

CAR SEAT

This one is probably a given, but the most important. Car seat regulations change, so do your research, read the manual, and install properly.

REAR SEAT MIRROR

Peak-a-boo! Infant car seats face the back of your car, so a rear seat mirror allows you to check on your baby anytime along the way.

CHANGING SUPPLIES

Babies need to feed, often.
Which leads to many dirty diapers.
Having the materials needed to
handle the mess while you're in
the car will be a lifesaver (and
car-saver).

CLEANER & PAPER TOWELS

Make sure you're prepared for whatever disaster your baby throws at you. Don't forget to grab cleaners that work best with fabric or leather.

BACK SEAT ORGANIZER

Skip the rummaging through your giant diaper bag and opt for an easy-to-access organizer filled with the essentials.
